

Low Bin foldable containers

Our Low Bin foldable containers are made from HDPE, ensuring durability and reliability.

They have a black pallet base and wood-effect colour walls, providing a cohesive display alongside our wood look crates. They are built to resist infra-red and ultra-violet rays, as well as extreme temperatures. They can easily be stacked to allow efficient storage, while the foldable design optimises space usage. They are compatible with our wood look crates, offering versatility and convenience for your storage needs.

- Equipped with RFID and barcode technology for accurate traceability throughout the supply chain.
- Enhances in-store product presentation, elevating its appeal and value to customers.

Hygienic

Plastic containers are non-porous and resistant to fungi, insects, acids, fats, solvents and odor. Our containers undergo thorough inspection after each use in the pooling process to ensure they meet our high-quality standards.

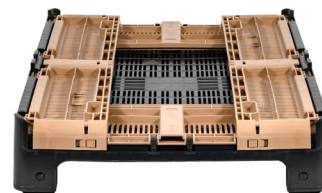

Sustainable

Made of HDPE, these plastic containers are ultra-durable, they can be reused for years and get easily recycled at the end of its working life.

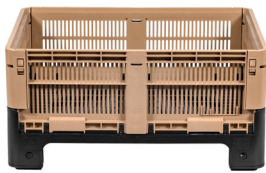

Ideal for fruit and vegetables

Specially designed with perforated walls and base for optimal fruit and vegetable storage, transportation, and display in-store. No liquid residues remain stagnant in the container.
